

# IECA

## International Erosion Control Association

The **International Erosion Control Association**, SCIECA's parent organization, is a non-profit, member organization that provides education, resource information and business opportunities for professionals in the erosion and sediment control industry.

The association's 2,800 members represent 52 countries and 17 fields of professional practice. IECA's diverse membership supplies a unique network of specialists who are capable of solving a broad range of problems caused by soil erosion and its by-product - sediment.

### The goals of the Association are:

- To educate IECA members, the public and the erosion control industry.
- To disseminate information through conferences, seminars and communication media.
- To provide technical expertise for people, organizations and governments seeking assistance in the field of erosion control and soil conservation.
- To establish standards for erosion control materials and installation procedures.
- To promote the expertise of erosion and sediment control specialists through professional certification.

International **Erosion Control** Association

# So what's in SCIECA for you?

## Networking

Involvement in your local chapter can help raise your profile within the profession. SCIECA activities provide opportunities to meet and learn from your peers in the erosion and sediment control industry. You might hear about your next job or meet your next coworker at a chapter meeting.

## Training and Education

What new tools and technology are available in the industry today? SCIECA offers **cost-effective** workshops, field days, and tours that inform you about all the latest news, regulations, equipment, and technology within the erosion and sediment control profession.

## Regional Conferences

SCIECA hosts an **annual conference** where hundreds of industry professionals gather from across the region. Conferences highlight educational sessions, vendor exhibits, and certification and testing opportunities as well. Regional conferences are an excellent place to network and **exchange ideas** in the profession.

## Online Resources

The SCIECA website [www.scieca.org](http://www.scieca.org) offers **valuable information** about SCIECA services, training and networking opportunities, as well as access to discussion groups and newsletters.

## Involvement and Personal Growth

You can make a difference. Organized and maintained by volunteers, SCIECA benefits from **your contribution**. You can get involved through committees and other volunteer tasks aimed at advancing SCIECA's success. Leadership positions offer opportunities to use your skills and talents to benefit the profession and to achieve deserved recognition.
